An aerial photograph of a city, likely Reykjavik, Iceland. The foreground is dominated by a large, vibrant green field. A paved road with a few cars is visible at the bottom of the frame. In the middle ground, there is a residential area with houses and a winding road. The background shows a dense urban area with various buildings and a large body of water. The sky is overcast with grey clouds.

An aerial photograph of a dry, cracked riverbed. A single, winding stream of water flows through the center of the cracked earth. The cracks form a complex, branching pattern across the landscape. The water is a dark, almost black color, contrasting sharply with the light brown, cracked soil. The overall scene conveys a sense of drought and environmental hardship.
